

**Brilliant inventions,
made by kids and tested by kids**

CHILDREN'S HALF HOUR SERIES

ABC

Let's Get Inventin' is a high-energy science and technology series that excites the imagination by encouraging young inquiring minds.

Kids have great imaginations, which is exactly what is needed in the wild world of invention. Ever seen a Hydraulic Crutch? What about a solar powered Rat Trap or jet propelled Surfboard, Smell-O-Vision, a Submersible Camera or a see-through Toaster? All these brilliant inventions were made and tested by kids. Learning about science and technology has never been this much fun.

Our young inventors enter the "ideas lounge" with an idea, drawing or concept, and are buddied up with a team of experts from different backgrounds, to help them with their build and teach them skills along the way. There's Dr. Robotech the robot expert, Electroman the electronics wiz, Captain Zorb the adventurer inventor, Rocketman the rocketry and jet expert, and the Wizard of Wind, a natural energy specialist. Whether it's welding, electronics, or metal fabrication, each whiz-kid learns new practical skills in order to complete their invention. And once their prototype is ready, it's subjected to a specially selected challenge in order to test its success.

Let's Get Inventin' reveals that young people can not only play the game but they can invent, design, and build the entire game itself. It proves to children that they themselves can create the rules and the adult world will follow. It celebrates inventive thought and, hopefully, inspires more of it.

Series 1: 26 x 22', Series 2: 26 x 22', Series 3: 10 x 22'
Series 4: 9 x 22' HD, Series 5: 10 x 22' HD
